

# Composting Class

**You must live in the Town of Babylon**

Learn about recycling and composting. Use your yard and kitchen waste to make soil that will help keep your plants healthy. You can have a lot less to throw away and make soil that's good for your garden.

The class is now in the form of a Power Point file. To register and receive the link to the file you need to return this page. Work through it with your whole family. Each family will receive

- a compost tumbler (worth over \$100)
- a small kitchen compost container to collect food scraps
- a binder with information and tracking sheets

If you help us with data collection by tracking how much you are composting for 6 months, you can earn a \$25 gift card to Home Depot.

**COST:** \$10 (per family)

- I am enclosing payment (make check or money order to: Starflower Experiences)
- I am paying by paypal to [info@starflowerexperiences.org](mailto:info@starflowerexperiences.org)

The composter comes in a large box.

- I can meet Laurie at the storage unit on Long Island Ave in Deer Park
- I will need to have it delivered to my house

RETURN TO:

Starflower Experiences, 13 Birch St, Wyandanch NY 11798

OR: [info@starflowerexperiences.org](mailto:info@starflowerexperiences.org)
